PRECLINICAL IMAGING WORKSHOP

High-resolution, non-invasive, in vivo imaging for cancer and cardiovascular research

January 29th, 2014

PROGRAMME

09:00 - 09.30	Registration
09:30 - 10:00	A warm welcome from our host Prof. Vincenzo Mollace, University of Catanzaro
10:00 - 10:45	Cardiovascular Phenotyping in genetically engineered mouse models Prof. Giuseppe Lembo, Neuromed Pozzilli and La Sapienza Rome
10:45 - 11:15	Break
11:15 - 12:00	Contrast and Molecular Imaging of Tumors with High-frequency Ultrasound and Photoacoustic Imaging Dr. Pierangela Giustetto, University of Turin and Ceip – Ivrea
12:00 - 12:45	Presentation on Cardiovascular Applications including Data Analysis Tools for Measuring Cardiovascular Function Philippe Trochet, Visualsonics, Toronto
12:45 - 14:00	Lunch
14:00 - 18:00	Demo/workshop

Room G1 (Biosciences Building, Level 0) – Campus “Salvatore Venuta”
University “Magna Græcia” of Catanzaro – Germaneto – Catanzaro
