

# UMG SYMPOSIA IN MOLECULAR MEDICINE

## STEM CELLS: FROM BENCH TO BEDSIDE

Chairmen – G. Cuda (UMG), G. Morrone (UMG)

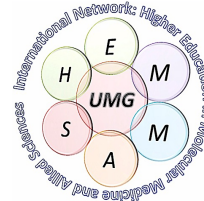

Saturday, June 7<sup>th</sup>, 2014 - Lecture Hall G2 – University Campus “S. Venuta”

### AGENDA

9.00	<b>Registration</b>
9:30	Welcome - <b>Giovanni Cuda</b> Università Magna Græcia – Catanzaro, Italy
10:00	<b>Salvatore Oliviero</b> Università di Torino - Torino, Italy The interplay between Polycomb and DNA methylases controls stem cell differentiation
10:50	<b>Karl-Ludwig Laugwitz – Alessandra Moretti</b> Technischen Universität München - Munich, Germany Stem cell medicine in cardiology
11:40	<b>Giovanni Morrone</b> Università Magna Græcia – Catanzaro, Italy Playing with haematopoietic stem cells: ex-vivo expansion and experimental models of myeloid leukaemogenesis
12:30	<b>Lunch Buffet</b>
13:30	<b>Federico Calegari</b> Center for Regenerative Therapies - Dresden, Germany Expansion of neural stem cell by manipulation of G1 length
14:20	<b>Violaine Goidts</b> German Cancer Research Center - Heidelberg, Germany Cancer stem-like cells, a therapeutic target in glioblastoma
15:10	<b>G. Giacomo Consalez</b> San Raffaele Scientific Institute - Milano, Italy Genetic regulation of stem cell self-renewal and neurogenesis in the embryonic cerebellum

ORGANIZING SECRETARIAT – Roberta Sgrò (+39) 0961 369-4157 - hemmas@unicz.it
